

SwMsARC meeting minutes
Thursday, March 12th, 2020
McComb, Mississippi.

The meeting was called to order by Club President, N5ZNT at 1901. There is a separate sign-in sheet for 7 present. Introductions requested to go the round.

AD7KJ read the meeting notes from January 9th in McComb. Treasurers report read by N5ZNT. There are no meeting notes for February, yet.

In old business: The Liberty repeater has not been evaluated, as it is still in the works.

In new business: the meeting room in Brookhaven is having construction scheduled during the April meeting date. Ellen with Sw Ms Regional Hospital gave notice in person, moments before the March meeting, that meeting rooms have all activities canceled, "UNTIL further notice" for the Covid-19 outbreak. Bob N4RUD moved and Cullen AD7KJ seconded to "conduct business meetings for April 9th and May 14th on the air by 85 and 94 repeaters with 28,300 for backup on 10 meters." None opposed. We can determine in May to continue meeting on the air according to how this thing plays out, as well as Dairy Festival, Field Day and VE tests.

A short program for briefing on radio-grams with photo copy handouts from N5ZNT.

At 1953 meeting closed.

Respectfully submitted by Cullen Watts, AD7KJ.
